### UNIVERSITY NAME

#### DOCTORAL THESIS

### Thesis Title

Author:
John SMITH

Supervisor: Dr. James SMITH

A thesis submitted in fulfillment of the requirements for the degree of Doctor of Philosophy

in the

Research Group Name Department or School Name

April 11, 2019

### **Declaration of Authorship**

I, John SMITH, declare that this thesis titled, "Thesis Title" and the work presented in it are my own. I confirm that:

- This work was done wholly or mainly while in candidature for a research degree at this University.
- Where any part of this thesis has previously been submitted for a degree or any other qualification at this University or any other institution, this has been clearly stated.
- Where I have consulted the published work of others, this is always clearly attributed.
- Where I have quoted from the work of others, the source is always given. With the exception of such quotations, this thesis is entirely my own work.
- I have acknowledged all main sources of help.
- Where the thesis is based on work done by myself jointly with others, I have made clear exactly what was done by others and what I have contributed myself.

### **Chapter 1**

### Introduction

#### 1.1 Redox reactions are biologically significant

Oxidation and reduction reactions (termed redox reactions) play a vital role in biology. These reactions are characterized by a flow of electrons between chemical species. The species gaining electrons is said to have been oxidized, while the species losing electrons is said to have been reduced. Redox reactions are involved in many vital processes such as cellular respiration, .

### Appendix A

## **Frequently Asked Questions**

#### A.1 How do I change the colors of links?

The color of links can be changed to your liking using:

\hypersetup{urlcolor=red}, or

\hypersetup{citecolor=green}, or

\hypersetup{allcolor=blue}.

If you want to completely hide the links, you can use:

\hypersetup{allcolors=.}, or even better:

\hypersetup{hidelinks}.

If you want to have obvious links in the PDF but not the printed text, use:

\hypersetup{colorlinks=false}.
